Summary of Qualifications:

A front end leaning, full stack capable web developer with great communication skills honed as a server in a high-end environment. Comfortable speaking with and leading groups of people. Highly proficient in the front-end, very productive with JavaScript, HTML, and CSS; as well as modern technologies such as React, TypeScript, and SASS.

A capable, trustworthy, hardworking individual who is respected and relied on by peers.

Technical Skills:

Front End:

- TypeScript/ JavaScript
- React
  - Hooks
  - Styled-Components
- CSS/ SASS
- HTML
- Accessibility

Back End:

- NodeJS
- Express
- MongoDB/ Mongoose
- MySQL/ Sequelize

SoftwareTools/ Practices:

- Git
- ESLint
- Jest/ React-Testing-Library
- Cypress
- Agile Development
- Deployment
  - Heroku/ Netlify

Applications:

The Manhattan Project
https://manhattan-project-uwbc.herokuapp.com/
https://github.com/mmcxii/manhattan-project

- Pushed for use of TypeScript which allowed us to catch and resolve bugs easier
- Made asset library for consistent and easy design
- Created majority of UI, state management, and file structure (on front end)

Decked Out	Let's Taco 'Bout It
https://deckedout.herokuapp.com/ https://github.com/mmcxii/decked-out	https://mmcxii.github.io/lets-taco-bout-it/ https://github.com/mmcxii/lets-taco-bout-it

- Made asset library for consistent design across app
- Made components for lifetracker, user profile, deck tracker, and modal pop-up for individual cards

- Set up SASS environment and taught teammate to use SASS
- Made components for displaying restaurants returned from Yelp search

All projects were a collaborative effort with a close-knit team, relying on Git for version control.

Experience:
Server
Vivi Pizzeria April 2019 - Present
Woodinville, Washington
Currently working as a server part time while attending school:
- Provide excellent service to a large number of tables (10+ at times)
- Extensive menu knowledge to provide recommendations to guests
- Cleaning and detailing restaurant at the end of the night
- Batching credit card transactions for processing
- Managing a team of bussers

Bartender/ Server
Overlake Golf & Country Club June 2017 to March 2019
Bellevue, Washington
- Implemented procedures to ensure side-work duties were completed daily. Created a Training Guide for complicated procedures in the POS system for employees using Microsoft Office
- Started as a server and promoted to bartender within a year
- Trained new employees on using company POS, greeting members, communication with kitchen staff, service procedures, set up and tear down
- Secondary lead for banquet service of 300+ people working as both server and bartender and timely set up and tear down of banquet service events

Professional Ski Instructor
PowderPigs Ski School September 2007 to December 2016
Snoqualmie Pass, Washington
- Taught children ages five to nine with zero to minimal to ski, students achieved success on moderate to difficult runs by the end of the season
- Communicated progress to parents and filled out end-of-day reports for each student
- Prepared end of year evaluations to place students in appropriate classes the next season
